HYDRAULIC BOTTLE JACKS

Our bottle jacks are fully aligned with the European Standards (EN 1494:2000+A1:2008) regarding mobile, movable jacks and lifting equipment.

The Weaver bottle jacks are projected with an hold-to-run relief valve to warranty the highest safety standards.

Since 1967 we have been studying, designing and testing products to ensure that the operator does not run any risk during the maintenance process of their vehicles. Our passion for creating the most reliable, fastest, easiest-to-use product without sacrificing the highest quality, has been combined with the pleasure of selling and interacting with anyone who trust our company.
